GitHub Projects

PROFESSIONAL EXPERIENCE

Deloitte Digital

Senior Specialist

Mar 2022 – present | Toronto, Canada

- As a consultant at Deloitte Digital, I am currently working on Science Design System project for Chan Zuckerberg Initiative
- My responsibilities include the development of a design system library that is used by multiple teams internally and externally, planning and creating react components, writing unit tests using Storybook and Jest, creating demos in CodeSandbox to demonstrate usage to developers, and participating in sprint grooming and planning. I also participate in pair programming and code reviews.
- Additionally, I am working on creating data visualizations on the web using various technologies and techniques to make data more understandable and accessible. My role as a consultant for CZI allows me to provide expert guidance and support to ensure the project's success.

Deepblue Networks AG

Senior Front end Developer

Dec 2021 – Feb 2022

Hamburg, Germany

- As a senior front-end developer, I contributed to the development of the Deutschland Card project, utilizing VueJS and Typescript technologies. My specific contributions included the implementation of new modules and optimization of the search module to improve performance.

FANAP ICT Co

Senior Front End Developer, UI/UX Designer

Apr 2017 – Nov 2021 | Tehran, Iran

- As a senior front-end developer, I worked on a web-based process visualization project, utilizing JavaScript to graphically monitor real-time data from sensors through async server and socket programming. The final result was an HMI software similar to WinCC.
- I developed a JavaScript SDK for FANAP's messaging platform, which was a pure JavaScript package that supported both browser and Node environments
- I also wrote unit tests using Mocha and developed load tests with Node JS to test the SDK with distributed random chat clients
- In addition, I also worked on a JavaScript SDK for FANAP's async server, which supported socket, MQTT, and ActiveMQ protocols. Unit tests were written with Mocha
- I also contributed to the UX/UI design and code implementation of FANAP's payment pages, using Adobe XD, JavaScript, HTML, and CSS.

- I also worked on the UX/UI design of Bazitech, FANAP's game center application, using Adobe XD and Photoshop.
- I also developed the Kish Island Tourism Management Portal, utilizing JavaScript and ReactJs.
- Lastly, I also contributed to developing the FanEx website, an international exchange system, utilizing PHP(Laravel), JavaScript, jQuery, HTML, CSS, and NodeJs.

Avizhe Co

Jan 2017 – Mar 2017 | Tehran, Iran

Senior Front End Developer

- Developing Eavar website (Eavar.com) (JavaScript, jQuery, HTML, CSS)

Rabin Co

Aug 2015 – Dec 2016 | Tehran, Iran

Fullstack Web Developer, UI/UX Designer

- As a senior front-end developer at Rabin, I had multiple responsibilities, including leading the front-end team and being involved in multiple design projects.
- In terms of web projects, I was responsible for the front-end and back-end development of Boshra IPTV utilizing technologies such as JavaScript, PHP, jQuery, HTML, and CSS. Additionally, I also developed the front-end and back-end of the DigiBanoo online store, utilizing the same technologies.
- In terms of design projects, I was responsible for creating the UI/UX design for the Android, iOS, and Smart TV application of Boshra IPTV. I also created the UI design for some portfolio iOS applications using Adobe Photoshop.

Forough Andishan Co

Jun 2014 – Jul 2015 | Tehran, Iran

UI/UX Designer

- Designing 10+ UI's for mostly iOS applications utilizing Adobe Photoshop.

IASBS University

Oct 2012 – Aug 2013 | Zanzan, Iran

Fullstack Web Developer, Graphic Designer

- Designing and developing IASBS's private social networking website (PHP, JavaScript, jQuery, Ajax, HTML, CSS)

DinkyLife Co

Mar 2010 – Aug 2013 | Zanzan, Iran

Fullstack Web Developer, Graphic Designer

- As a co-founder of DinkyLife, a social networking website based on psychology theories and experiments, I was involved in the entire process of the project, from conceiving the main idea to the final designing and development. I worked alongside two of my friends in creating DinkyLife, and we were responsible for all aspects of the project, from its design and development to its launch and maintenance.

EDUCATION

Bachelor of Science | Information Technology

2009 – 2013 | Zanzan, Iran

Institute For Advanced Studies in Basic Sciences (IASBS)

- **WES** Verified International Academic Qualification (Certificate Link [↗](#))
- **Thesis:** A Security Evaluation of Mobile RFID Systems and the Proposal of a Novel Security Protocol (September 2014)
